CONTENTS

For more than two decades, CVASU has been producing quality veterinary graduates who become the asset of the country and lead the society. Joining CVASU as an undergraduate student of Faculty of Veterinary Medicine (FVM), you are embarking on a lyrical blend of education and research to be a pioneer – academically, socially, personally and professionally. This Student Handbook is designed to orient you to start your academic journey in this Faculty. It comprises information on the academic, social, and personal development opportunities and resources to help you make good choices.

Good luck!

Professor Dr. Goutam Buddha Das
Vice-Chancellor

This handbook can guide you to your academic requirements, the residential system and many other activities that take place outside the classroom. Most importantly, the handbook clarifies the values and the standards we hold as a community and what we expect you to honor in your conduct as a CVASU student. We all share the responsibilities for upholding these standards. If you ever have any questions about these standards, please do not hesitate to reach out to your teachers or the assigned tutors. As members of an academic community, we are committed to searching for truth and knowledge. So, we also want you to have the same commitment and feel this Faculty as a center of educational excellence.

I wish you a happy, healthy and fruitful journey in the Faculty of Veterinary Medicine.

Professor Dr. Abdul Ahad
Dean
Faculty of Veterinary Medicine

CHATTOGRAM (PREVIOUSLY KNOWN AS CHITTAGONG) IS A MAJOR COASTAL CITY

Chattogram (previously known as Chittagong) is a major coastal city and a financial center of Bangladesh. The city has a population of more than 2.5 million making it the second-largest urban center in the country. It is located on the bank of the Karnaphuli river between the Chattogram Hill Tracts and the Bay of Bengal.

ABOUT THE UNIVERSITY

ABOUT THE UNIVERSITY

Chattogram Veterinary and Animal Sciences University (CVASU) formerly known as Chittagong Government Veterinary College (CGVC) started functioning on January, 1996 with 50 students in its first academic session under the Faculty of Science, University of Chittagong. Later on, the Chittagong Veterinary and Animal Sciences University (CVASU) was established by the Act of the Government of the People's Republic of Bangladesh on 07 August, 2006. Finally, Chittagong was changed to Chattogram by a government order in 2018 and the

University adopted the change in 2019 in its name. In the inception, the university offered 5-year Doctor of Veterinary Medicine (DVM) degree and gradually it has been expanding its offers in higher education on various other allied sciences to enhance research and development in the field of livestock, food technology and fisheries. Consequently, the university initiated 4-year bachelor degrees in Food Science and Technology and Fisheries in 2009 and 2013 respectively. In postgraduate programs, the university also offers Masters and Doctor of Philosophy (PhD) degrees under

different departments. Currently, the university has 3 faculties, 18 departments, 2 teaching veterinary hospitals, 3 institutes and 2 outreach campuses based in Hathazari and Cox's Bazar. Very recently the university has introduced 'CVASU Research Vessel' to be operated in Kaptai Lake to conduct need based researches on inland fisheries resources. A total of 1605 students are presently enrolled and 131 expert faculty members along with 216 supporting staffs are working together to run the academic activities of the university.

THE FACULTY

At present there are 88 teachers in the Faculty of Veterinary Medicine in 9 departments. Doctor of Veterinary Medicine (DVM) is a 5-year technical degree including 1 year internship program. The faculty is led by a Dean who is appointed for 2 years on the basis of seniority of the professors of the Faculty. The Faculty offers various taught and

practical courses through the departments. Moreover, the Faculty is following an updated syllabus with the latest teaching methodologies e.g. Problem Based Learning (PBL). Over the years, the Faculty has been engaged in student exchange programs in reputed universities of the USA, Malaysia, Thailand and India.

DEPARTMENTS

DEPARTMENTS

The FVM is composed of 9 departments which offer various undergraduate courses in 5-year program.

- ▶ Anatomy and Histology (ANH)
- ▶ Animal Science and Nutrition (ASN)
- ▶ Microbiology and Veterinary Public Health (MVP)
- ▶ Dairy and Poultry Science (DPS)
- ▶ Physiology, Biochemistry and Pharmacology (PBP)
- ▶ Genetics and Animal Breeding (GAB)
- ▶ Pathology and Parasitology (PTP)
- ▶ Agricultural Economics and Social Sciences (AES)
- ▶ Medicine and Surgery (MDS)

UNDERGRADUATE ADMISSION

CVASU is a coeducational institution and the admission to this university is highly competitive. The students after 12 class of schooling (Higher Secondary level) with Science background can appear in the admission test. Under the umbrella of cluster admission

test of the agricultural universities held at the beginning of the academic year, CVASU offers admission to 100 qualifying students for the Doctor of Veterinary Medicine (DVM) program. Importantly, the university maintains special provisions to provide admission

for the specific number of students from the country's indigenous community so as to encourage them in higher education and learning. A few seats are preserved for off springs of the freedom fighters as well.

DETAILS OF THE ADMISSION PROCEDURE ARE AVAILABLE AT

 www.cvasu.ac.bd/index.php/bachelors
www.admission-agri.org

FACILITIES AND AMENITIES

LABORATORIES

Each department under the FVM has their own laboratories enriched with modern sophisticated equipment with cutting edge technologies. Each laboratory has a skilled Technical Officer who maintains the laboratory data and aid students in performing their laboratory experiments under the guidance of respective faculty of the department. There is also a Laboratory Animal Unit and prototype farm of large animals for practical experiments in the main campus.

MAJOR LABS

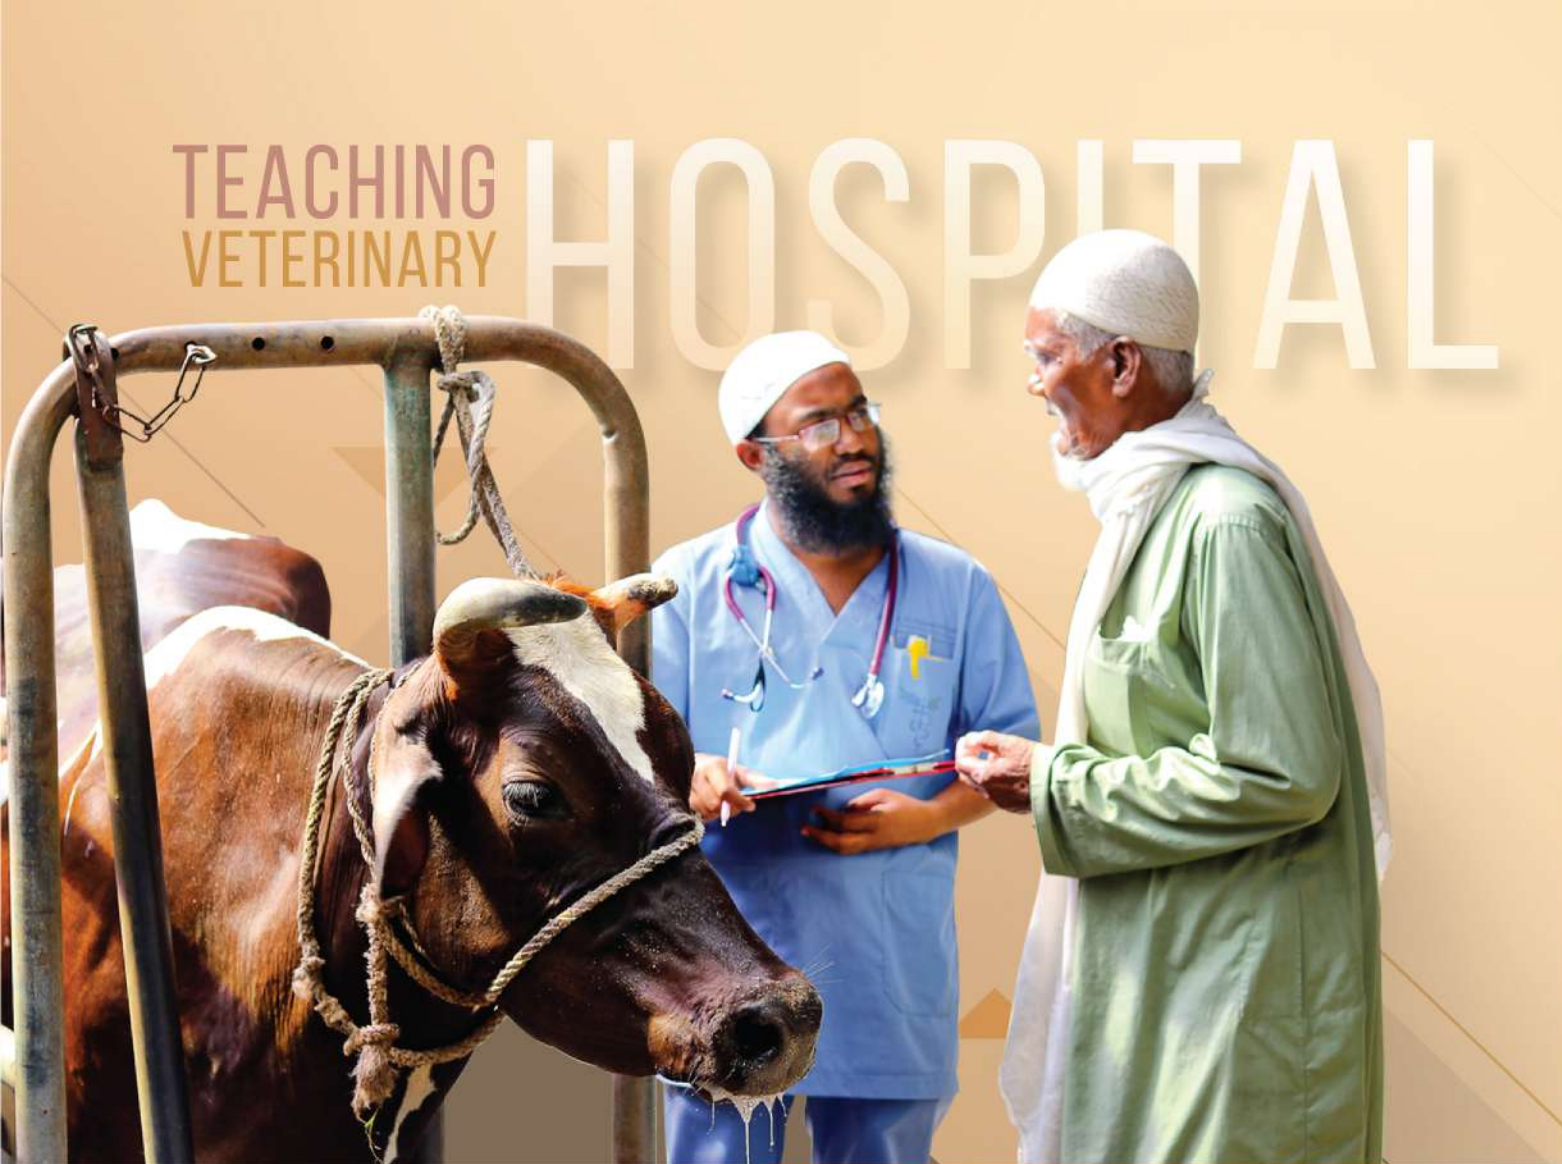

ACADEMIC DEPARTMENT	LABORATORIES
Anatomy and Histology	Gross Anatomy Lab
	Histology Lab
	Cell Biology Lab
Animal Science and Nutrition	Animal Nutrition Lab
	Animal Science Lab
	Postgraduate Lab
Microbiology and Veterinary Public Health	General Microbiology Lab
	Virology Lab
	Molecular Microbiology Lab
Dairy and Poultry Science	Dairy Science Lab
	Poultry Science Lab
Physiology, Biochemistry and Pharmacology	Physiology Lab
	Biochemistry Lab
	Pharmacology and Toxicology Lab
	Postgraduate Research Lab
Genetics and Animal Breeding	Genetics Lab
	Animal Breeding and Biotechnology Lab
Pathology and Parasitology	Pathology Lab
	Parasitology Lab
	Histopathology Lab
	Clinical Pathology Lab
	Molecular Lab
Agricultural Economics and Social Sciences	Digital English Language Lab
	Agricultural Economics and Social Sciences Lab
Medicine and Surgery	Medicine Lab
	Rumen Lab
	Andrology Lab
	Surgery Lab
	Epidemiology Computer Lab

ANATOMY

MUSEUM

The Anatomy Museum housed in a spacious well decorated room in the Department of Anatomy and Histology contains skeletons of different animals and birds such as horse, ox, deer, camel, duck, goat, sheep, pigeon, crocodile, snake, lizard, pig, ostrich and monkey. You may lose yourself in the country's first ever Anatomy Museum which displays 30 stuffed animals, 20 animal models, 500 specimens preserved in formaldehyde, 2,000 different types of bones, 75 models of different animals, 3,000 different slides and 30 portraits of scientists. Dried soft organs of some animals are also preserved in the museum. The University authorities have not fixed any entrance fee yet. Therefore, anyone can visit the museum free of cost on weekdays.

TEACHING VETERINARY HOSPITAL

TEACHING VETERINARY HOSPITAL

The SA Quadery Teaching Veterinary Hospital (SAQTVH) of CVASU offers hands-on exposure of clinical and surgical practices to the veterinary students in pursuing their undergraduate and postgraduate degrees. Everyday a good number of clinical and surgical cases of large and small animals are registered in this hospital for treatment and consultation purpose. The students from 3rd year of undergraduate DVM degree have

mandatory hospital duty up to their internship. The hospital also supports the DVM students from other Vet schools of home and abroad for their internship. Another new endeavor of CVASU- Teaching and Training Pet Hospital and Research Center (TTPHRC) situated at Purbachal, Dhaka is the first ever pet hospital of its kind in Bangladesh and is solely dedicated for pet animals.

INSTITUTES

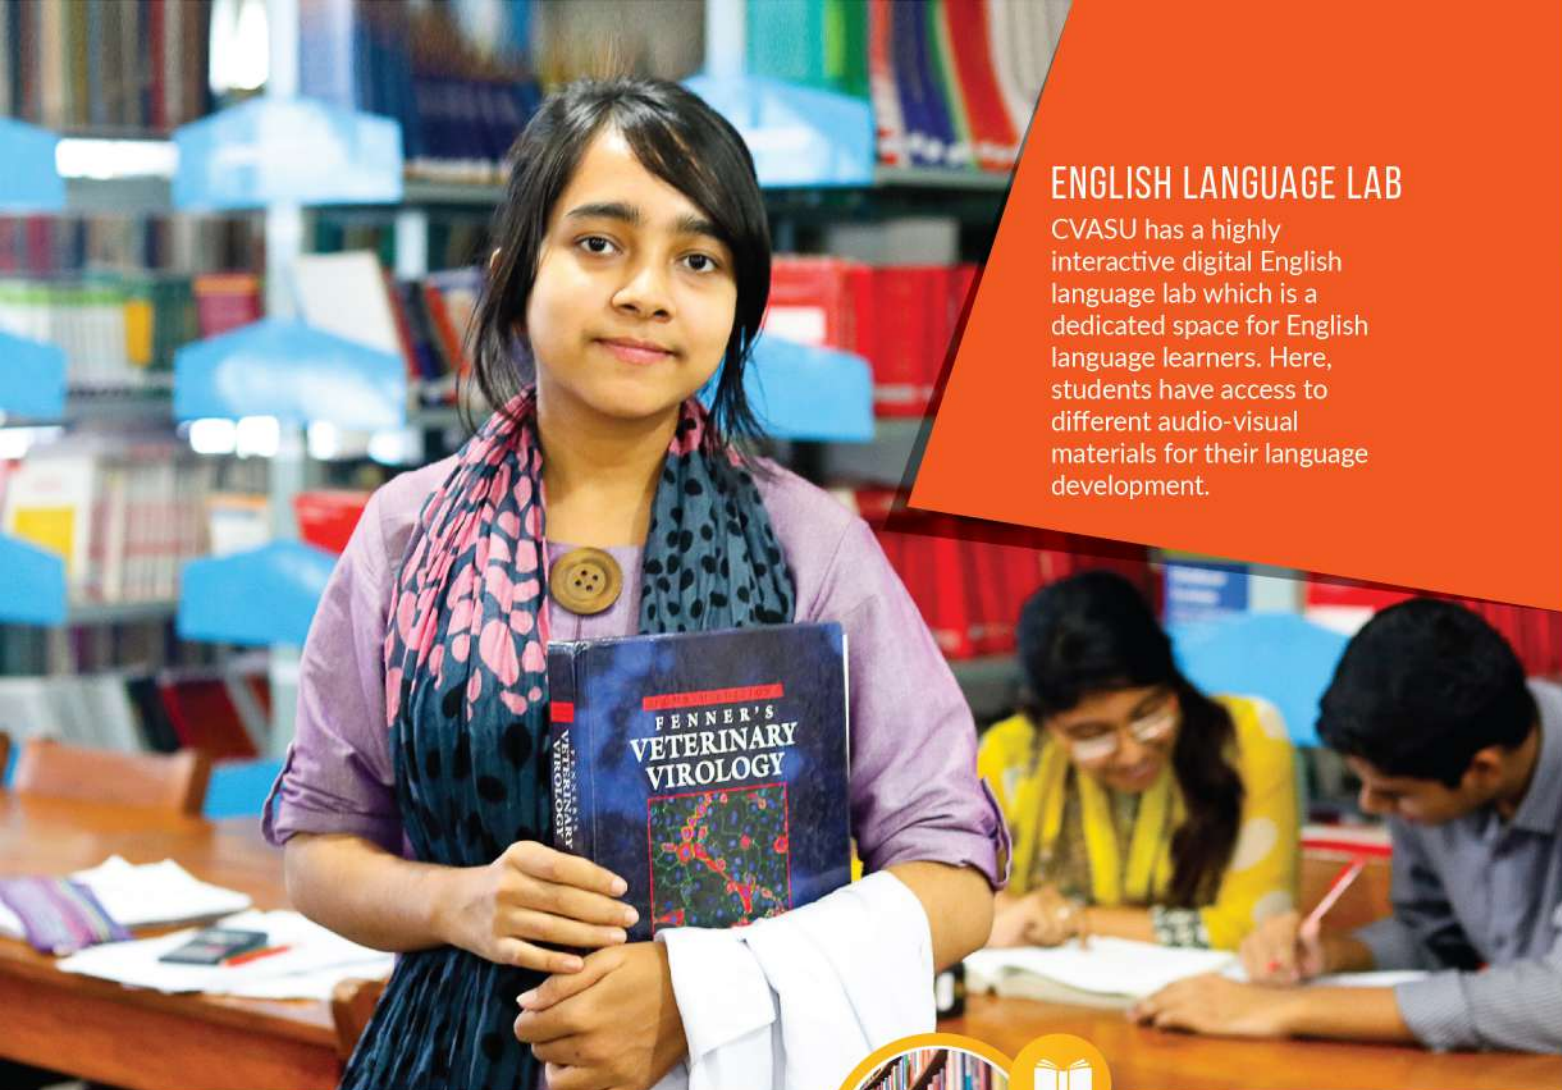

The institutes function under the executive and academic control of the University with separate governing bodies. Currently, CVASU has Poultry Research and Training Center (PRTC) which is equipped with sophisticated modern instruments and laboratory appliances for feed analysis and animal

disease diagnosis. CVASU also has One Health Institute which promotes the 'One-World-One-Health' concept for enhancing research and dissemination of knowledge on One Health issues. This institute also offers Masters in Public Health (MPH) in semester based program to the professionals of

multidisciplinary biological background. The third one is the Institute of Coastal Biodiversity, Marine Fisheries and Wildlife Conservation which is located at Dariyanagar beside the Cox's Bazar Marine Drive.

RESEARCH AND FARM BASED CAMPUS

It is a research and farm based campus of the university which is located in Hathazari Upazilla of Chattogram - 25 km away from the main campus. Two new institutes and two new faculties will be established there to provide adequate research facilities to the students and researchers for knowledge development.

ENGLISH LANGUAGE LAB

CVASU has a highly interactive digital English language lab which is a dedicated space for English language learners. Here, students have access to different audio-visual materials for their language development.

DIRECTORATE OF STUDENTS' WELFARE

The Directorate has the overall responsibility for the welfare and student life on campus. It provides the students with various opportunities to foster their intellectual and personal growth, to make friends from different cultures and to ensure the overall educational experiences at CVASU. Students are strongly encouraged to participate in students' activities organized by the Directorate and to expand their horizons outside the class rooms through exposure to social, cultural, career development, recreational and governance programs.

FINANCIAL SUPPORT

CVASU ensures every convenience is provided to enable a smooth, stress-free campus life where students can single-mindedly focus on their education. For the needy students, university arranges special stipend and scholarships through various outsources. Related information can be availed from the Directorate of Students' Welfare.

STUDENTS' WELFARE

TUTORIAL SYSTEM

The tutorial system is here to help you gain understanding and insight into any difficulties you may be experiencing and to develop emotional resilience by enabling your academic and personal potential. The 1st year students are guided by assigned faculty members.

STUDENTS' WELFARE

COMPUTER LAB

The undergraduate students could access the Computer lab during the library hours with its well set up 40 computers and necessary digital infrastructure to catch the ever increasing information. A well-equipped e-resource center is also there for accessing e-journals, e-books and others e-materials for research students. The computer lab is equipped with high-speed internet connections and a set of powerful multimedia capabilities.

LIBRARY

The CVASU Central Library generally manages knowledge both in print and digital formats and ensures seamless discovery and access to these scholarly resources to the library users. It provides high-quality ambiance for both reflective and collaborative work and study. To ensure effective and efficient information services to the patrons, CVASU Central Library has introduced state of the art automation

technology using Radio Frequency Identification (RFID). The library also has a *Bangabandhu* and Liberation war corner which has archived the documents, books and published materials related to Bangabandhu Sheikh Mujibur Rahman, Father of the Nation of Bangladesh and the liberation war. The library operates from sunday to thursday during 9:00 am to 8:00 pm.

MEDICAL CENTER

MEDICAL CENTER

The university has a dedicated health center for taking care of the students' health. The center has qualified doctors and health instructors who are available at the campus throughout the day and are available over phone during emergency. The center also provides with basic medications for the students for free of cost. Additionally, there is 24-hour ambulance service to tackle any unwanted medical emergencies.

SPORTS AND RECREATION

The Physical Education Department provides the facilities for gym, football, cricket, volleyball, tennis, badminton and basketball. Regular sport meets and game competitions are important features of the campus life. Cable TV connection is available in the halls and residential quarters. The students frequently arrange cultural programs, film show, indoor games competition and so on.

Each residential hall in addition to the central students' canteen (Shubho Canteen) has arrangement for meals in a very reasonable price.

SHUTTLE BUS

University has several buses and mini-buses to carry the non-residential students to the campus. The buses are operated in different routes throughout the city. Bus routes and schedules can be availed from the CVASU Transport Office.

SHUTTLE

RESIDENTIAL HALLS

Currently, there are two residential halls at the university- Bir Muktijoddha M. A. Hannan Hall for male students and Bangamata Fazilatunnesa Hall for female students. A total of 804 students can reside in male hall while the accommodation capacity of the female hall is about 420. Each residential hall has indoor game facilities, spacious TV room and flower garden.

SAFETY AND SECURITY

The campus is a safe and secured place to study, stay and socialize in. Though the campus is fully covered by CCTV surveillance, it is recommended to be cautious for personal safety. The students are also advised to take precautions while using stairs, lifts, lab articles and any other electrical appliances. There is a very busy and accident prone road at the front gate of the campus and it is highly recommended to be extra vigilant while crossing the road.

STAFF-STUDENTS' RESPONSIBILITIES

Faculty members instruct undergraduate and graduate students and also conduct research and consultancy works. A total of 88 faculty members along with the non-academic and supporting staffs are constantly rendering their respective services for ensuring the academic excellence. Our faculty members

continuously share their experiences; prepare scholarly articles and presentations for other fellow academicians, researchers, practicing vets and students and always link with the field problems to develop new research ideas. The students are

expected to interact with their course teachers and instructors for developing their course understanding.

CODE OF CONDUCT

Code of conduct is the principles that dictate the students how they should operate and behave in the campus life. These codes include high moral and ethical standards; respect and tolerance; honesty and integrity; discipline; obedience to the university rules and regulations; community and environmental welfare; and fair competition. It is highly expected that students behave in such a way that a peaceful harmonious atmosphere exists in the campus. It is also recommended that students rightly use the social media and show their tolerant positive attitude with utmost respect to all communities. Proctor office is the supervising and controlling authority in this regard and you may contact the Proctorial Body for any further clarification.

ACADEMIC DRESS CODE

HARASSMENT

The university has 'zero-tolerance' policy for any sorts of student harassment or ragging. The proctor office takes care of this issue with utmost importance. The students are advised to communicate with the proctor office for any such incidences. CVASU expects all members of its community to treat each other with respect, politeness and consideration.

ACADEMIC INTEGRITY AND PLAGIARISM

Academic integrity or academic honesty is the basic foundation of academic and career life. It includes the attitude, behaviour and actions in an academic environment while seating for exams, doing researches, preparing assignments, presenting or creating a project. Honesty, trust, respect, fairness and responsibility are the five crucial values you have to maintain during your academic life. Moreover, academic integrity is the commitment to live by these

Students should wear smart but comfortable dress in theory classes while they should wear lab coat (white apron) in laboratory and academic year specific clinical uniform in the hospital. Furthermore, internship students must wear scrub suits at the time of handling patients in hospital. Students are recommended to use full covered shoes rather than slippers while working in Teaching Veterinary Hospital.

values. On the other hand, plagiarism is an aspect of academic integrity, which is to use, steal or represent anyone's ideas, words, data or products as your own ideas, words, data or products or using those without giving proper credit to the original author(s). Non-compliance with these rules will mean breach of academic integrity. For any proven evidence of 'Lack of Academic Integrity' may bring the student under the Disciplinary Action as per University Policy.

COURSE SUMMARY

TOTAL COURSES

81 (Including Internship Reports) in 10 semesters

TOTAL CREDITS

182 (Theory : 98+ Practical : 84)

DEPARTMENT WISE COURSE DISTRIBUTION

Department of Anatomy and Histology (ANH)

Gross Anatomy-I (GRA-101)
Histology and Embryology-I (HEM-101)
Gross Anatomy-II (GRA-102)
Histology and Embryology-II (HEM-102)
Avian Anatomy (AVA-102)
Comparative and Neuro-anatomy (CAN-201)
Topographic and Applied Anatomy (TAA-302)

Department of Animal Science and Nutrition (ASN)

Animal Science (ANS-101)
Fodder Production (FPR-102)
Zoo, Wild and Lab Animal Management (ZAM-201)
Animal Nutrition (ANT-201)
Poultry Nutrition and Feed Milling Technology (PNT-202)
Meat Science and Animal By- Product Technology (MAT-402)

EXAMINATION AND PROMOTION SYSTEM

1. Students of 1st, 3rd, 5th and 7th semester shall have to appear three-fourth of their respective semester examinations for promotion to the next semester, failing which he/she shall be declared to have failed in the respective semester examination and he/she shall have to get admission afresh with the students of the same semester of following session. Students of 9th semester of 5th year must get 11 credits for promotion to the next semester.

2. From 1st year to 2nd year class

A student shall be promoted from 1st year to 2nd year class provided he/she earns at least 25 credits out of 30 credits of the 1st year class.

At this stage, he/she shall be allowed to earn the remaining credits of the 1st year class in the subsequent 1st and/or 2nd semester examination(s).

If he/she fails to earn the said remaining credits of the 1st year class within the subsequent 2nd year, he/she shall not be promoted to the 5th semester of the 3rd year class. In that case, he/she shall be treated as student of the 4th semester of the 2nd year class and he/she must have to earn remaining credit(s) of the 1st year class within the subsequent semester examination of 2nd year class; failing which he/she shall be declared disqualified to continue the course.

If a student fails to earn at least 25 credits within the 1st year class (1st and 2nd semester), he/she shall be treated as a student of 1st year. The number(s) of credits earned by him/her below 25 will be treated as earned credits. He/she has to take part in the subsequent examinations (1st and/or 2nd semester) of the 1st year only for the lost credits, and added it with the previously earned credits. He/she has to earn at least the number of credit(s) out of the lost

credits to reach 25 to get promotion to the 2nd year class; failing which he/she shall be declared disqualified to continue the course, i.e. he/she shall be treated as no more student of the university. He/she must have to earn the remaining credit(s) of the 1st year class in the subsequent 1st and/or 2nd semester examination, failing which he/she shall be declared disqualified to continue the course.

3. From 2nd year to 3rd year class

A student shall be promoted from 2nd year to 3rd year class provided he/she earns at least 35 credits out of 42 credits of the 2nd year class.

At this stage, he/she shall be allowed to earn the remaining credits of the 2nd year class in the subsequent 3rd and/or 4th semester examination(s).

If he/she fails to earn the said remaining credits of the 2nd year class within the subsequent 3rd year, he/she shall not be promoted to the 7th semester of the 4th year class. In that case, he/she shall be treated as student of the 6th semester of the 3rd year class.

If a student fails to earn at least 35 credits within the 2nd year class (3rd and 4th semester), he/she shall be treated as a student of 2nd year class. The number(s) of credits earned by him/her below 35 will be treated as earned credits. He/she has to take part in the subsequent examination(s) (3rd and/or 4th semester) of the 2nd year only for the lost credits, and added it with the previously earned credits. He/she has to earn at least the number of credits out of the lost credit(s) to reach 35 to get promotion to the 3rd year class; failing which he/she shall be declared disqualified to continue the course, i.e. he/she shall be treated as no more student of the university.

He/she must have to earn the remaining credit(s) of the 2nd year class in the subsequent 3rd and/or 4th semester examination, failing which he/she shall be declared disqualified to continue the course.

4. From 3rd year to 4th year class

A student shall be promoted from 3rd year to 4th year class provided he/she earns at least 37 credits out of 44 credits of the 3rd year class.

At this stage, he/she shall be allowed to earn the remaining credits of the 3rd year class in the subsequent 5th and/or 6th semester examination(s).

If he/she fails to earn the said remaining credits of the 3rd year class within the subsequent 4th year, he/she shall not be promoted to the 9th semester of the 5th year class. In that case, he/she shall be treated as student of the 8th semester of the 4th year class.

If a student fails to earn at least 37 credits within the 3rd year class (5th and 6th semester), he/she shall be treated as a student of 3rd year. The number(s) of credits earned by him/her below 37 will be treated as earned credits. He/she has to take part in the subsequent examination(s) (5th and/or 6th semester) of the 3rd year only for the lost credits, and added it with the previously earned credits. He/she has to earn at least the number of credit(s) out of the lost credits to reach 37 to get promotion to the 4th year class; failing which he/she shall be declared disqualified to continue the course, i.e. he/she shall be treated as no more student of the university. He/she must have to earn the remaining credit(s) of the 3rd year class in the subsequent 5th and/or 6th semester examination, failing which he/she shall be declared disqualified to continue the course.

5. From 4th year to 5th year class

A student shall be promoted from 4th year to 5th year class provided he/she earns at least 37 credits out of 44 credits of the 4th year class.

At this stage, he/she shall be allowed to earn the remaining credits of the 4th year class in the subsequent 7th and/or 8th semester examination(s).

If he/she fails to earn the said remaining credits of the 4th year class within the subsequent 5th year, he/she shall be treated as student of the 10th semester of the 5th year class.

If a student fails to earn at least 37 credits within the 4th year class (7th and 8th semester), he/she shall be treated as a student of 4th year. The number(s) of credits earned by him/her below 37 will be treated as earned credits. He/she has to take part in the

subsequent examination(s) (5th and/or 6th semester) of the 4th year only for the lost credits, and added it with the previously earned credits. He/she has to earn at least the number of credit(s) out of the lost credits to reach 37 to get promotion to the 4th year class; failing which he/she shall be declared disqualified to continue the course, i.e. he/she shall be treated as no more student of the university. He/she must have to earn the remaining credit(s) of the 4th year class in the subsequent 7th and/or 8th semester examination, failing which he/she shall be declared disqualified to continue the course.

6. Awarding of degree after completion of 5th year

A student shall be declared passed in 5th year internship to complete the degree provided he/she earns all the 22 credits of the 5th year internship including the remaining credits of the 4th year (7th and 8th semester).

If he/she fails to earn the remaining credits of the 4th year (7th and 8th semester) class, he/she have to earn the credits at the subsequent 7th and 8th semesters examinations, failing which he/she shall be provided one more chance to earn the remaining credits of the 4th year courses in the following 7th or 8th semester examination as irregular students. Students failing to clear the remaining credits of 4th year within the last chance will be treated as no more student of the university.

If a student earn at least 18 credits out of 22 credits of the 5th year class (9th and 10th semester) he/she shall be allowed to appear for a subsequent examination of the 5th year for this lost credit. That subsequent examination shall have to be held with the respective examination. The results of examination will be published as soon as possible.

If a student fails to earn at least 18 of the 22 credits offered for the 9th and 10th semesters of 5th year, then he/she shall be treated as the student of the 5th year class. The number(s) of credits earned by him/her below 18 will be treated as earned credits. He/she has to take part in the subsequent examination(s) of 9th and/or 10th semester of the 5th year only for the lost credits and he/she must have to earn all the 22 credits of 5th year, failing which he/she shall not be awarded the DVM degree rather he/she shall be considered once again as a student of the 5th year. Those who fail to secure all 22 credits in the 3rd chance with supplementary examination if necessary will be considered as no more student of the university.

INTERNSHIP

The objective of internship program is to provide practical exposures in the fields of veterinary, production and extension through different national and international placements. Total duration of the internship is one year. By this time, each student has to produce two scientific reports (clinical and production reports) with the aim of developing the following skills:

1. Designing, organizing and conducting clinical and production based small studies
2. Presenting and writing scientific reports
3. Searching scientific literature and extracting necessary information
4. Using software for data analysis and referencing of the report

National and international collaborations have been established with different universities and organizations so that the students get opportunities to visit those to gain hands-on experiences.

MAJOR NATIONAL PLACEMENTS

- Upazilla Veterinary Hospital (UVH)
- Central Veterinary Hospital (CVH)
- Remount, Veterinary and Farms Corps (RVFC), Bangladesh Army
- Dairy Farms
- Breeder Farms
- Zoo and Safari Parks
- NGOs

MAJOR INTERNATIONAL PLACEMENTS

- Tamil Nadu Veterinary and Animal Sciences University India: All students (1 month)
- Tuft University, USA : Selected students (1 month)
- Khon Kaen University, Thailand: Self-financed students (1 month)
- Universiti Putra Malaysia, Malaysia: Selected students (1 month)

SCHOLARSHIPS AND AWARDS

GENERAL STIPEND

All CVASU students are entitled to receive a monthly stipend from the university. For general stipend related inquiries, students may contact with the relevant Provost Office.

DEAN'S AWARD

Dean's award is given to selected final year students on the basis of CGPA and extracurricular activities. Appreciation awards are also given to selected students from each academic year annually.

YUSUF JOHORA SCHOLARSHIP

Since 2009 Yusuf-Johora scholarship has been given to the selected poor and meritorious students of CVASU. This scholarship is named after late Yusuf Chowdhury and his wife Johora Khatun, founder of Dainik Purbokon. The scholarship is awarded every two years.

MERCK SCHOLARSHIP AWARD

Veterinary students from around the world receive scholarships from Merck Animal Health in partnership with the American Veterinary Medical Foundation (AVMF). The students from second and third year are eligible to apply for the Merck scholarship. Successful applicants receive \$5000 scholarship to support their educational endeavors.

However, there are more external scholarships and awards other than the above. Students are advised to search for other opportunities online.

INTERNSHIP ALLOWANCE

During the internship period, the students receive an internship allowance of 15,000 BDT monthly to meet daily pocket money and the transport needs.

STUDENT SERVICES

In each semester, students need to collect exam registration form and a receipt from CVASU account section and submit their exam fee (around 1,600 BDT) through Janata Bank, university branch. Students may create student bank account there to avail other banking services in the campus.

For any course related issues, students are advised to contact the course teacher and for any other general academic issues, students may contact FVM Dean Office.

CAREER SCOPES

The graduation from Faculty of Veterinary Medicine will invite you wholeheartedly in the vast arena of various government professional cadre services, university faculties, general veterinary practices in home and abroad, research organizations, national and international pharmaceuticals and feed companies, non-government organizations, zoo and wild life, public health agencies, Bangladesh Army and so on. Many of our alumni have established themselves as successful entrepreneurs as well.

STUDENT ORGANIZATIONS AND EXTRA-CURRICULAR ACTIVITIES

A handsome number of Students' organizations and associations are active in the campus with a view to developing a cultural, scientific and social vision through leadership exercises alongside the academic drills. Here are a few names which you may find interesting.

FVM Students' Association, CVASU is a professional student based organization dedicated to maintain convenient environment for learning modern veterinary education in the campus. This organization works for the rights and welfare of veterinary students, uplifting the noble veterinary profession through celebrating veterinary related days and organizing different seminars, debate and other competitions inside and outside the campus.

International Veterinary Students Association (IVSA), Bangladesh and One Health Young Voice have been working for veterinary education, animal welfare and animal health since 2015. They arrange campaign on different significant days related to veterinary education, school-students awareness campaign, One Health program, seminars and workshops on food safety, zoonotic diseases and newly emerging animal diseases.

To get the essence of culture and arts, there is a cultural organization named *Prangon*. It actively organizes different National days, *Pohela Boishakh* (Bengali New Year), *Pohela Falgun* (1st day of Spring), *Rabindra Jayanti*, *Nazrul Jayanti*, Freshers' Reception and so on.

Badhan, a voluntary blood donors' organization, also operates their volunteering activities in CVASU premises to motivate the students and youngsters for blood donation. They arrange free blood grouping, blood donation campaigns and organize people for blood donation for the patients under critical situation in hospitals.

CVASUMUNA- CVASU Model United Nations (MUN) Association is an educational simulation initiative which helps students learn about diplomacy, negotiation, international relations and the United Nations through spreading the root concept of MUN among the students of the CVASU. It involves students in debating on critical international issues and encourage them in teamwork and leadership capability development for nation building.

WEATHER

Staying in Chattogram is exciting between the months of October and early March as the most suitable weather condition prevails at that time while the months from April to August may be muggy due to torrid summer days and heavy monsoon rains.

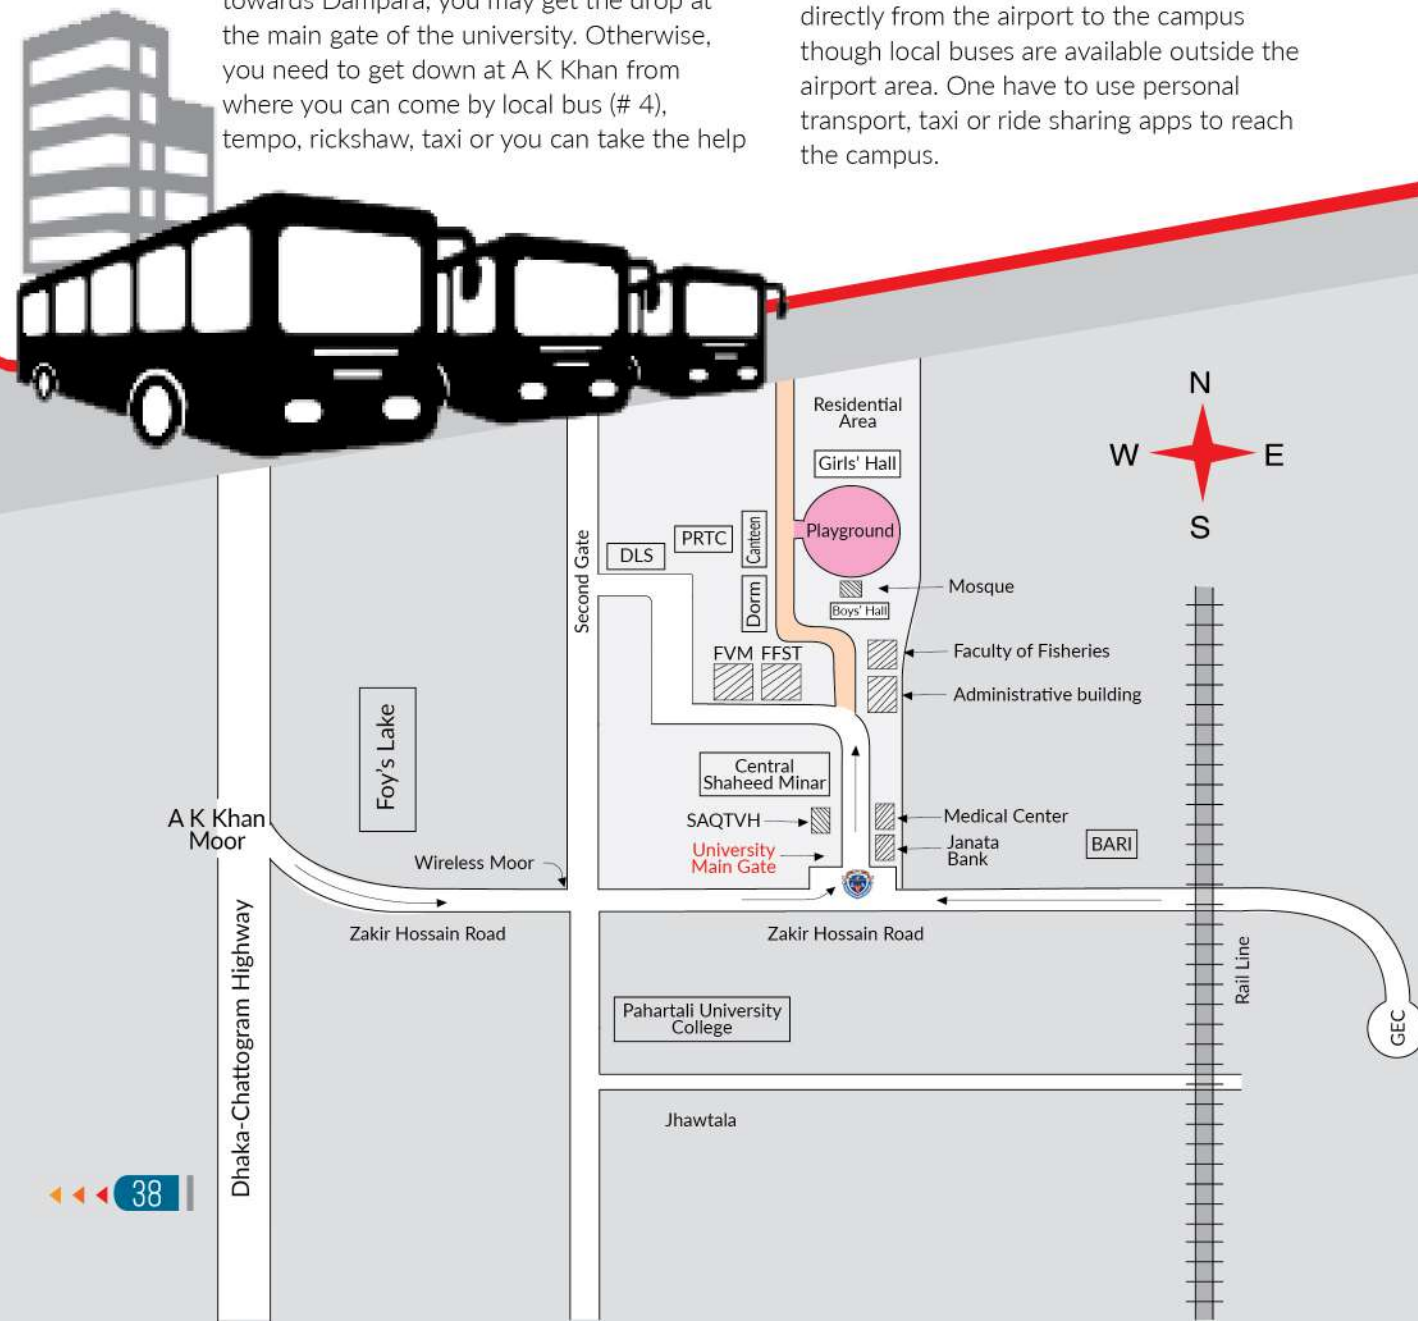

TRANSPORT TO CAMPUS

CVASU main campus is situated near-by Wireless Circle alongside the Zakir Hossain Road under Khulshi Police Station, at the center of the port city of Chattogram, Bangladesh. The Chattogram city can be reached from the capital Dhaka by train, bus and air. It takes approximately 6 hours by train or bus and about 45 minutes by air from Dhaka to Chattogram. The nearest inter-district bus stops are at A K Khan (2.6 km to west) and Dampara (2.7 km to east). If the inter-district bus enters the city and heads towards Dampara, you may get the drop at the main gate of the university. Otherwise, you need to get down at A K Khan from where you can come by local bus (# 4), tempo, rickshaw, taxi or you can take the help

TRANSPORT TO CAMPUS

of various ride sharing apps. If you come by train, your stoppage will be "Chattogram Railway Station" situated at New Market area which is about 6.2 km away from our campus. Again, you have the same before-mentioned transport options to come to the campus from the station.

You can also come by air to Chattogram from any major cities in the country. CVASU campus is around 22 km away from Shah Amanat International airport, Chattogram. There is no-convenient public transport directly from the airport to the campus though local buses are available outside the airport area. One have to use personal transport, taxi or ride sharing apps to reach the campus.

VETERINARY OATH

“

Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health and the advancement of medical knowledge. I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics. I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.

”

Chattogram Veterinary and Animal Sciences University (CVASU) has a pleasant presence on social media and other online platforms.
